10. Your use of Your Service

10.1 Use of Your Service must comply with Uniti's Fair Use Policy

10.2 Residential & Business Use of Your Service

- a) Uniti's Residential Plans are intended only for personal use in a residential environment, Uniti's Business Plans are intended for only commercial use in the ordinary course of that customer's business, and with ancillary personal use.

10.3 Reasonable & Acceptable Use of Your Service

- a) You must not use Your Service and/ or Uniti's broadband Internet services in a manner which is unreasonable or unacceptable. The terms unreasonable and unacceptable are defined in Uniti's Fair Use Policy.

10.4 Unlimited data

- a) Uniti offers plans for broadband Internet services that provide unlimited data. Uniti intend that unlimited data plans will allow customers to operate their Uniti Residential, Business or Enterprise plans for Internet services without having to worry about whether or not they will run out of data. Unlimited means that the amount of data that a customer may download or upload is not usually limited by set quotas. But Uniti also intend that our unlimited data plans are not to be abused.
- b) If for example, every night of the week You have 4 teenagers all watching YouTube, and playing on-line games, and texting their friends, and "doing their homework", and mum and dad are also trying to do work at home and also look for a bargain on Gumtree – that's ok, that is what the plan is for. But if you have set up a system to experiment with what might be technologically or physically possible, eg - downloading all of the files from all of the file sharing sites at nearly full speed for most of the week, downloading in a week more movies than any human being could watch in a lifetime, or running a private data centre, that would be an abuse, and that is not what the plan is for.
- c) If Your Service has unlimited data and Uniti consider that You are consuming huge volumes of data, Uniti may make inquiries about the reason why that may be happening. Where Uniti determines that You are abusing Your Service, Uniti may impose limits on Your Service or, more likely, Uniti may reconfigure Your Service to another plan at a lower plan price with a data limit.

10.5 Bullying, Harassment & Trolling

Uniti want the broadband Internet services that Uniti provide to help make the world a better place, not a worse place. Uniti respect the agency of individuals, the rights of minorities and of people who might be a bit different, Uniti think women and men and gender-non-specific are all entitled to equal treatment, to access to opportunities and to safety, Uniti think that people with different levels of ability are entitled to an even chance, and Uniti think its ok to be LGBTQ. Uniti think that bullies and trolls can do enormous damage to people, even if they don't think that's what they are doing. Therefore:

- a) You must not use Your Service to engage in conduct is or might be: harassment, offensive behaviour, bullying or trolling, or which is otherwise unreasonable or inappropriate, regardless of whether such content is actually lawful or unlawful.
- b) You also must not use Your Service to engage in conduct on-line, against groups of people, against ideas or generally, that does or might constitute: hate speech, fighting words, or which otherwise articulates unreasonable or inappropriate anger, hate, frustration, lies or disinformation, regardless of whether such content is actually lawful or unlawful.
- c) If someone is being harassed or bullied on line, via someone using a Uniti Internet service contrary to these obligations, and if the person being bullied or harassed presents Uniti with material, that Uniti

reasonably determine has substance, – for example an Intervention order – then Uniti may take action to restrict the activity that is causing the harm by restricting or limiting access to material, or cancelling a customer's service. Or if someone is using a Uniti Internet service, in a way which Uniti determines, is or might be, maliciously spreading hate, racism, discrimination, inciting violence, or to spread lies or disinformation – then Uniti reserves the right, to take action, to restrict the activity that is causing the harm, by restricting or limiting access to material, or cancelling a customer's service.

- d) So, please, don't be a hater, please try and be kind, and Uniti won't have to implement these rules, and we'll all get along fine. But if You do hate, Uniti may take action to stop the hate. Here endeth the lesson.

10.6 Uniti's action in the event of a breach of Uniti's Fair Use Policy

- a) If You use Your Service and/or Uniti's broadband Internet services outside of criteria and limitations set for use, or in contravention of Uniti's Fair use Policy, then Uniti will:
- i) first - contact You and seek an explanation for the vast use of data; and if that explanation is acceptable to Uniti, Uniti will allow the service to continue, but Uniti will continue to monitor Your use of Your Service; and
 - ii) second - in the event that the explanation is not acceptable to Uniti, or in the event of multiple occurrences, which Uniti find unsatisfactory, Uniti may take action which may include limiting Your Service, shaping Your Service, moving You to another plan at a lower price with a data limit, or, in the event of repeated abuse, suspending or cancelling Your Service.

- vii) A threat or risk to the quality or security of Your Service or the Uniti network has occurred, that Uniti reasonably suspect is linked to or caused by You, Your employees, contractors or someone who You have given permission or implied permission to use Your Service;
 - viii) Your Service is being on-sold by You to a third party, or You are acting as a telecommunications carrier or service provider;
 - ix) You or a party or corporate entity related to You, is effected by insolvency and Uniti determines, acting reasonably, that that insolvency is a risk to Your ability to pay for Your Service;
 - x) Your business ceases operation or changes the way it is operated and Uniti determines, acting reasonably, that that insolvency is a risk to Your ability to pay for Your Service.

11.5 Action following Suspension

- a) Following suspension Uniti may cancel Your Service at a later date for any of the above reasons. Uniti will endeavour to give You as much notice as possible, depending on the situation if any of the above reasons occur for suspension or cancellation.
- b) Reconnection of a cancelled service will involve the payment of a reconnection fee unless the reason for the cancellation was not caused by Your conduct or default or has been caused by our breach of the CSA or other default.
- c) If Your Service is cancelled, You are still liable to pay charges accrued prior to the cancellation (Cancellation Fee). If cancellation occurs during a Contract Term, because of Your conduct or default, You must pay the Cancellation Fee.
- d) If at the time of the cancellation You have a credit outstanding on Your account, subject to Uniti's Billing Policy, You will receive Your credit to a listed credit card, provided that Uniti reserve the right to charge You any associated merchant fees to refund the credit to You. If You require a refund of the credit by another means Uniti reserve the right to charge a handling fee.
- e) Upon cancellation, Uniti must immediately be able to access the premise to remove our Equipment, as soon as Uniti are able.
- f) All applicable terms and conditions of the CSA will continue to apply after cancellation.

12. Fees on Relocation & Cancellation

12.1 Relocation of equipment

- (a) At any time during the Term Uniti may require that Uniti's equipment must be relocated for technical reasons, to another place on Your property.

- (a) If Uniti's installers arrive at Your Premises and You then decide that You don't want to go ahead with the installation, whether that is because You withdraw Your permission to have a mast and antennae installed on the roof at Your Premises, or You disagree with the location of the mast or the termination point at Your Premises, or for any other reason, then Uniti will incur costs of: staff administering the sale, staff scheduling the installation, staff conducting field work to attend at Your residence or business, use of consumables, tying up materials allocated for Your installation, and forgoing the opportunity to proceed with a successful installation for a customer who does want our service.

13. CommUniti – Uniti’s free local broadband Internet service

13.1 CommUniti - Free Public Outdoor Internet Service

- a) In addition to providing a wireless broadband network that delivers Super-Fast wireless and fixed line broadband Internet services, through a network of cell sites, to residential and business customers, Uniti also provides the CommUniti free public outdoor wireless Internet service.
- b) The CommUniti service operates at rates that are limited when compared to Uniti’s standard residential, business and enterprise plans. The CommUniti service operates presently at rates of 1Mbps download speed and 1Mbps upload speed, but Uniti have plans to increase this speed as the network grows. This may be 2/1Mbps or even up to or beyond 5/5Mbps as the technology and the network progresses. This equates to roughly enough bandwidth to send and receive emails, use social media and access websites for information, but not enough to send video, download movies or other large content, or consistently operate data-hungry or content heavy business applications.
- c) The CommUniti free network service is available to all residents and visitors to areas within a limited range of Uniti’s Super-Fast wireless broadband network and is available free of charge.
- d) This aspect of Uniti’s network and services enables Uniti to fulfil part of our mission to bring broadband Internet to as many people as Uniti possibly can. Uniti Wireless believe that access to broadband Internet is a private necessity and is also a right that should be available to every member of our Australian population.
- e) Additionally, the CommUniti free Wi-Fi broadband Internet service enables Uniti Wireless to advise of the availability of Uniti’s broadband Internet services to potential residential and business customers, which may lead to further installations within the network, which would lead to greater strength and resilience of the network, which will enable Uniti to provide the CommUniti free public outdoor Internet service to more Australians, and so on.
- f) For the avoidance of doubt, the CommUniti free service operates from equipment, attached to Uniti’s mast at each Customer site, including Your site. The CommUniti free service operates on and uses bandwidth, which is separate from the Customer’s own connection, and as such the free service does not impact on the bandwidth or performance of the Customer’s connection.
- g) You acknowledge and agree that the equipment installed by Uniti at Your Premises to provide Your Service will be used by Uniti in the provision of the CommUniti free Wi-Fi broadband Internet network.

- d) If reporting a fault to Your Service, it is recommended You make all checks possible to determine the fault is not caused by Your equipment. If Uniti’s faults team attend Your Premises for a fault report submitted by You; and Uniti’s reasonable opinion no fault is identified or the fault is determined to be caused by Your equipment or a negligent or intentional act by You, then Uniti can charge You a No-Fault Fee of \$150.00 plus GST.

 - ii) a fault or other event which may reasonably be attributed directly or indirectly to Your Equipment;
