

UNITI WIRELESS

DATA USAGE INFORMATION

The following table provides an estimate of how much data each online activity will consume. It is intended as guideline for you to estimate your personal Internet usage requirements.

When you think you are able to estimate your Internet requirements go to our residential plans page at: <https://unitiwireless.com/residential-plans/> to match your requirements to one of our plans.

Online Activity	Estimated Data Usage
General Internet browsing	100 MB per hour
Social media (e.g. Facebook, Twitter)	50 MB per hour
Email	50 kB each (without attachments)
Documents and photos	2 MB each
Music downloads	5 MB per track
Video downloads	3 GB per movie
Voice over IP	20 MB per hour
Video over IP (for example, Skype)	60 MB per hour
Online radio stations	60 MB per hour
Online video streams (for example, YouTube)	500 MB per hour
Online gaming	200 MB per hour
