5.2 Uniti will notify You of alterations to the terms and conditions of the Customer Service Agreement only if the effect of the alteration is detrimental to You, and not otherwise

- a) If any alteration to the CSA is detrimental to You, then Uniti will advise You expressly that alterations have been made, and Uniti will endeavour to advise You at least 30 days prior to the change, of the pending alteration. This notification will be made by email, on Your next billing invoice and by a notice of the change posted on Uniti's website.
- b) If the alteration to the CSA change is detrimental and likely to make a significant impact to You, You may cancel Your Service in question within 30 days of our notification to You. In this circumstance Uniti will not charge You a Cancellation Fee. But You will still be required to pay for any installation and equipment charges and for any usage or variable charges accrued up to the date of cancellation that You have not yet paid for.
- c) Unless the alteration to the CSA is detrimental to You or to Your Service, Uniti are not required to, and Uniti may not, advise You expressly that alterations have been made to the CSA.
- d) If Uniti reasonably determine that the alteration to the terms and conditions of the CSA is of no consequence to You, or is of benefit to You, then Uniti will make the alteration and Uniti do not need to advise You, prior to the alteration being made or taking effect, of the alteration. Uniti will however notify You of the alteration within a reasonable amount of time, by notice on our website, by email or on Your next billing invoice.

6. Access and Permission to locate equipment at Your Premises

6.1 Access

- a) By submitting Your Application for Services to Uniti You:
 - i) **request that Uniti provide Your Service** to You at Your Premises;

- ii) **provide Uniti all necessary permission** to enable Uniti's supplier's, installers, engineers or other technicians to **access** Your Premises, to **install** the equipment necessary at Your Premises, and to **operate** the equipment so as to provide Your Service to You at Your Premises; and
 - iii) **grant to Uniti a licence** to Your Premises sufficient to enable Uniti to install and operate all equipment necessary to provide Your Service to You at Your Premises for the Term.
- b) You agree to provide Uniti and its supplier's with prompt and safe access to Your Premises, and You agree that Uniti's supplier's and installers may conduct work on Your Premises, which may include: investigation of the structure and materials used in the fabrication of Your Premises, investigation of the suitability of Your Premises for connection into Uniti's telephone or broadband Internet network, and for the installation, testing, repair, replacement and maintenance of equipment.
 - c) You also agree that at the end of the Term, Uniti or its supplier's may then attend and have safe and prompt access Your Premises to remove and recover Uniti's equipment.
 - d) Uniti's supplier's, network engineers and installers will determine the technical means or location or type of equipment by which Uniti will deliver telephone or broadband Internet services to Your Premises. The basis of this determination may include: the height of the mast, the location of the mast on the roof of Your Premises, or which roof the mast is installed on. Any installation requests or limitations that You would like to place on the works will be escalated by the installers, at the time, to be reviewed by Uniti's customer service team.
 - e) Due to how the service operates, limitations caused by vegetation, the equipment or other factors can cause an installation to be insufficient to meet Uniti's connection quality standards, and consequently unsuccessful. In the event that an installation is unsuccessful You agree that Uniti will not be liable for any loss or damage incurred by You.
 - f) Uniti's supplier's, network engineers and installers may, at any time during the time that Uniti provides telephone or broadband Internet services to You, determine that it is necessary to change the location of equipment necessary to deliver telephone or broadband Internet services to You. In that event You agree that Uniti or its supplier's may attend and have safe and prompt access Your Premises, to the equipment by which Uniti provides telephone or broadband Internet services to You, and to conduct any necessary works, including relocation of equipment. Uniti will, in the event of any change to the technical means or the location or type of equipment by which Uniti provides telephone or broadband Internet services to You, endeavour to ensure that the performance of Your Service is not adversely affected by these changes. In the event that a relocation or associated works are unsuccessful You agree that Uniti will not be liable for any loss or damage incurred by You.

6.2 Permission - Owners

As owner of Your Premises You give permission for Uniti to install equipment necessary to provide Your Service at Your Premises.

6.3 Permission - Tenants - Your obligation to obtain all necessary permissions

- a) If You are not the owner of Your Premises then You must obtain sufficient permission, from the owner of the property, for Uniti to access the property, to install, test, maintain, replace, repair or remove the equipment necessary to provide Your Service.
- b) As tenant of Your Premises You confirm that You have obtained from the owner and/or landlord and/or agent all consent necessary for Uniti to install equipment necessary to provide Your Service at Your Premises.
- c) If the owner does not give You permission, then You must notify Uniti prior to Uniti commencing any work at Your Premises.
- d) In the event that You have not obtained sufficient permission, You indemnify Uniti against any claim or costs incurred by Uniti that the owner of the property makes against Uniti, Uniti's employees or contractors as a consequence of Uniti's entry onto the property, and/or any works conducted on the property.

6.4 Permission - Members of an Owners Corporation / Body Corporate - Your obligation to obtain all necessary permissions

- a) If You are either the owner or a tenant of Your Premises and Your Premises are part of and are regulated by the rules of an Owners Corporation or a Body Corporate then You must obtain sufficient permission, from the Owners Corporation or Body Corporate for the property, for Uniti to access the property, to install, test, maintain, replace, repair or remove the equipment at Your Premises necessary to provide Your Service.
- b) As owner or tenant of Your Premises, where Your Premises, are regulated by a body corporate, strata corporation, owners corporation or other such managing body or agent, You confirm that You have obtained from that body corporate, strata corporation, owners' corporation or other such managing body or agent, all consents necessary, for Uniti to install equipment necessary to provide Your Service at Your Premises.
- c) If the owner does not give You permission, then You must notify Uniti prior to Uniti commencing any work at Your Premises.

- d) In the event that You have not obtained sufficient permission, You indemnify Uniti against any claim or costs incurred by Uniti that the owner of the property makes against Uniti, Uniti's employees or contractors as a consequence of Uniti's entry onto the property, and/or any works conducted on the property.

6.5 Permission – Development Approval

- a) In some unusual situations Development Approval from a local council may be required for Uniti to install equipment at Your Premises.
- b) The usual situation is that - Uniti is licensed as a Carrier under the Telecommunications Act 1997 (Cth) and Section 6 of Schedule 3 of the Telecommunications Act 1997 (Cth) provides that Uniti is empowered to install equipment which constitutes a Low Impact Facility, (which is defined by the Telecommunications (Low Impact Facilities) Determination 1997 (Cth)), without requiring Development Approval from a local council. A Low Impact Facility includes the mast and antennae that Uniti use for standard and non-standard installations.
- c) However in some circumstances this usual situation won't apply. Section 2.5 of the Telecommunications (Low Impact Facilities) Determination 1997 (Cth) provides that an area of **environmental significance** includes a **place, building or thing** that is entered on a register relating to heritage conservation. Section 3.1 2) of the Telecommunications (Low Impact Facilities) Determination 1997 (Cth) provides that equipment will not be a Low Impact Facility if the area on which the equipment is installed is an area of **environmental significance**. We believe this is to stop telecommunications providers putting equipment on places like the Sydney Harbour Bridge. But there are a small handful of suburbs in Australia where the residents have persuaded themselves and the government that there is something significant about those places. Some of those suburbs have been entered onto a register relating to heritage conservation, such as the Australian Heritage Places Inventory. These places may be an area of **environmental significance**.
- d) Typically there will be a discrete aspect of those places, such as the layout of suburbs, block size or style of building construction, which is the basis for the place being preserved. In some respects, this may be a comforting way to live, with a comfortable way of life preserved. But this also could be an awful way to live, a modern day cross between Jeremy Bentham's Panopticon and the world of the Stepford Wives, with neighbours scrutinising every action and thing of their neighbours' homes and complaining to the local council, and residents denied the freedoms of living in a private home and the benefits of modern technology and other conveniences.
- e) In any event, in a place like this, Uniti will not be able to rely on the exemption contained in the Telecommunications Act 1997 (Cth), and a Development Approval from the local council will be required for Uniti to install the equipment.
- f) If You live in one of these places, then a Development Approval will be required for Uniti to install equipment at Your Premises.
- g) Uniti are able to prepare and submit an application for Development Approval for You. But there will be two costs for this: first the cost of the work necessary to prepare the application for Development Approval, and second the fees charged by the Council to process the application.
 - i) For the first cost – the time spent preparing and submitting the application for Development Approval - Uniti will not impose a fee on You for Uniti's time in preparing and submitting the application for Development Approval.
 - ii) For the second cost – the council fees for submitting the application. This cost will be imposed by the local council and will be a fee for their time and may also include a fee for obtaining a certificate of title for the property. The council will assess and impose this fee usually only after the application is submitted, Uniti cannot assume this cost – Uniti did not make You live in this place with its unusual rules after all – So, Uniti must pass this cost on to You. Uniti will only pass on to You the fee imposed by the Council
- h) Uniti will endeavour, prior to preparing and submitting the application for Development Approval, to confirm with You that You wish Uniti to prepare the application for Development Approval, and to inform You what the costs will be to submit that application. But either way, whether Uniti are able to confirm this with You or not, before submitting the application for Development Approval, You agree to pay any such costs of submitting the application for Development Approval.
- i) If, when You make Your Application for Services, You do not inform Uniti that Development Approval is required for Uniti to install equipment at Your Premises then You are representing to Uniti that either there is no requirement for Development Approval, or alternatively, that You have obtained any Development Approval that may be necessary prior to submitting Your Application for Services.

7. Installation of equipment and connection of Your Service

7.1 Time for installation of equipment and connection to network

- a) Uniti will connect Your Service as soon as Uniti can, but there will be a delay between the time that Uniti accepts Your Service Application, the time that Uniti can schedule and conduct the installation of

equipment at Your premises, and the time that Uniti can commence the supply of telephone or broadband Internet services to Your premises.

- b) You acknowledge and agree expressly that Uniti will not be liable for any delay in relation to the installation of equipment at Your premises or with commencement of supply of telephone or broadband services to Your premises. Uniti may notify You of the expected date for provisioning your telephone or broadband Internet service, however, that date is an estimate, not a guarantee, and Uniti is not liable for any failure to meet such date.
- c) After Uniti has accepted Your Application for Your Service, it may cancel the service if it determines that it will be unable to connect or provide the service within a reasonable time. In such case, Uniti is not liable to You for any failure to provide the service.
- d) Once Uniti have accepted Your Application for Services and determined that Your Service can be provided to You, Uniti will commence to invoice You for Your Service.

7.2 Supervision for installation of equipment

If You own Your Premises and / or You have obtained the necessary permissions, then, when Uniti are scheduled to conduct the installation, You must have someone over 18 years of age in attendance at the appointed time for the installation, to supervise Uniti's presence at Your Premises, to assist in making decisions such as around location of equipment, and to assist Uniti's installers to obtain access to parts of Your Premises if necessary.

7.3 If You need to leave Your Premises during the installation of equipment

- a) You remain, while the installation of equipment necessary for Your Service is underway, responsible for the safety and security of Your Premises.
- b) When Uniti are scheduled to conduct the installation at Your Premises, You must have someone over 18 years of age in attendance at all times during the installation to be responsible for the safety and security of Your Premises.
- c) If it becomes necessary for You to leave Your Premises during the installation of equipment, then:
 - i) Uniti will continue to conduct all aspects of the installation with due care and attention and otherwise in accordance with the terms and conditions of this Customer Services Agreement;
 - ii) You must lock and otherwise make secure all of Your Premises and all of Your property;
 - iii) If You cannot lock and otherwise make secure all of Your Premises and all of Your property, and if you need to, or wish to, ask that Uniti staff or contractors lock and otherwise make secure all of Your Premises and all of Your property, then Uniti staff or contractors will, once the installation is complete, use their best endeavours to comply with any directions You may give, and lock and otherwise make secure all of Your Premises and all of Your property, but Uniti can not and will not assume responsibility, (and You agree that Uniti are not and will not be responsible) for the safety and security of Your Premises, and You will not hold Uniti liable for any loss or damage arising as a consequence of You failing to make safe and secure all of Your Premises and all of Your property when You do leave Your Premises prior to the completion of the installation;
 - iv) You acknowledge and agree expressly that Uniti will not be responsible or liable to You, and You will not hold Uniti liable for loss or damage arising as a consequence of You failing to make secure all of Your Premises and all of Your property when You do leave Your Premises;
- d) Uniti staff and contractors are honest, trustworthy and reliable. But, that said, while the installation is underway, Uniti must insist that You remain responsible for the safety and security of Your Premises.
- e) Uniti may use this clause as a bar to all claims for loss or damage arising as a consequence of You failing to make secure all of Your Premises and all of Your property when You do leave Your Premises prior to the completion of the installation.

7.4 Installation and relocation of equipment

- f) You acknowledge and agree expressly that installation and relocation of any equipment necessary to provide Your Service at Your Premises must be in compliance with Uniti's Installation, Relocation & Cancellation Policy.
- g) You represent and warrant to Uniti that You have read, understood and will comply with Uniti's Installation, Relocation & Cancellation Policy.

7.5 Service Speeds

- a) When Uniti installs equipment at Your Premises Uniti's installers will test the connection so that Uniti can confirm before Your Service is connected that Uniti is able to deliver the service at speeds required for Your Service. Uniti also conduct testing of services delivered to customers to ensure that service speeds delivered are at levels agreed.
- b) Some occasional fluctuations in speeds may occur, and Your Service may not achieve the maximum speed at all times. This is due to circumstances outside of Uniti's control, (weather (rain, heat, wind), damage to equipment, and outages to either power or telecommunications aspects of the network).
- c) If variations or fluctuations are repetitive, consistent and impede delivery of Your Service then Uniti will investigate and endeavour to resolve the cause.

- d) If Uniti cannot resolve the cause Uniti may either reduce Your Service to speed levels which can be delivered, or Uniti may cancel Your Service with no penalty to either You or Uniti.

7.6 Location of wall plate

- a) Part of the equipment to be installed at Your Premises will be a wall plate. This will be located inside Your Premises, and this will link Uniti's antenna and mast, located on the roof-top area of Your Premises, to Your router inside Your Premises, to enable wireless connection throughout Your Premises.
- b) Please nominate where You would prefer for Uniti's technicians to terminate the service inside of Your Premises.
- c) Uniti's technicians will endeavour to place the wall plate at this location. But if that is not possible, they will discuss alternative locations with You, and they will obtain Your consent prior to locating the wall-plate being at that alternative location in Your Premises.
- d) If the contract for Your Service comes to an end over time or is cancelled either by Uniti or by You, Uniti will recover our equipment, but Uniti will leave the wall plate in place. You agree expressly that the wall plate will remain after all other equipment is removed.

8. Fees on Installation of Your Service

8.1 Installation Fees

- (a) In order for Uniti to commence providing Your Service Uniti must install equipment, which may include a mast, antenna, radio, data and/or power cabling, and/or materials to provide structural support to such equipment, at Your Premises, and Uniti must administer the connection of Your Premises to the Uniti telephone or broadband Internet network to enable Uniti to provide Your Service. In doing these things Uniti will incur costs of materials and staff time to complete the installation and activation of Your Service. Uniti will pass some of those costs on to You in the Installation Fee.

8.2 Installation Fees – Standard Installation - mast of up to 3m

- (a) For an installation of equipment requiring a mast of up to 3m, Uniti will charge You an activation fee, depending on the duration of the term of the contract for Your Service, for:
- (i) a residential or business contract for **12 months - \$149.95**;
 - (ii) a residential or business contract for **24 months - \$99.95**; and
 - (iii) a residential or business contract for **36 month contracts - \$0.00**.
 - (iv) enterprise customers will be priced in accordance with the particular requirements of Your Premises to which the Enterprise service is to be provided, the fee will be stated in Your quote for Your Enterprise Service, but will typically be between **\$300-\$900.00**;
 - (v) no Lock In contracts - **\$799.95** for both residential and business customers.

8.3 Installation Fees – Special Offers

- (a) Uniti may from time to time advertise special offers to waive or discount Installation Fees for Your Service. If You accept such an offer, that offer will prevail to the extent of any inconsistency with the clause above regarding activation fees for a standard activation.

8.4 Installation Fees – Non-Standard Installation - mast of above 2.4m – 5m

- (a) In some cases, in order to overcome issues present at Your Premises arising from technical, operational, topographical or vegetation issues, a non-standard activation will be required - Uniti may need to install a taller mast, greater stability or structural equipment, or more sophisticated antenna or other telecommunication equipment at Your Premises. In these cases Uniti will incur further and additional costs of materials and staff to complete the installation and connect Your Premises to Uniti's telephone or broadband Internet network and provide Your Service. Uniti will pass some of those costs on to You.
- (b) For an installation of equipment requiring a mast of above 2.4m – 5m and/or other more sophisticated equipment or staffing requirements, Uniti will charge You an additional fee of **\$499** for the activation of Your Service.
- (c) For the avoidance of doubt special offers regarding Installation Fees will not apply to a non-standard activation.

9. Ownership of Equipment

9.1 Uniti's equipment

- a) The equipment supplied by Uniti and installed at Your premises to connect Your Service remains Uniti's property.
- b) You agree to provide a suitable power supply for the equipment, and You agree to provide a suitable location for the equipment to be installed.
- c) You must not sell, lend, remove or part with Uniti's equipment, except when it is removed in accordance with our instructions and approval.

- d) In the event that any of Uniti's equipment is lost, stolen or damaged, (excusing fair wear and tear) You agree to pay Uniti for any such loss, theft or damage.
- e) For the avoidance of doubt, all equipment which Uniti installs on any customer's property remains the property of Uniti, and is not owned, to be operated by or interfered with, by You. Uniti is licensed as a Carrier under the Telecommunications Act 1997 (Cth) and, in the event that Uniti's equipment, network or services might be interfered with, Uniti's network and services are protected by penalties applicable under that legislation.

9.2 Your equipment

- a) You are responsible for the supply, operation, maintenance, security and repair of Your own access points or modems for internal Wi-Fi access.
- b) You are responsible for the maintenance, operation, security and repair of Your own equipment, and You are responsible for ensuring that Your own equipment complies with all Australian laws and technical standards as determined by regulatory bodies.

9.3 Purchase of equipment from Uniti

- a) You may purchase equipment, for example wireless access points or modems, from Uniti as part of the service.
- b) Uniti does not retain ownership of any equipment that You purchase from Uniti as part of Your Service.
- c) If You purchase incorrect equipment from Uniti, that equipment may be exchanged within 14 days of delivery, provided that the equipment is returned without damage, in complete condition as it was prior to the purchase and with all packaging intact, and a handling fee of \$99.95 is paid to Uniti.

9.4 Inspection of equipment from time to time

- a) You agree, in order to ensure the safety and quality of Uniti's equipment, Your Service and Uniti's network, to allow Uniti, at any reasonable time, to inspect Your equipment, to make any modifications and You agree to follow any reasonable directions that Uniti give You in relation to the operation, maintenance, security and repair of Uniti's equipment and Your equipment.
- b) You must ensure that the equipment used with Your Service complies with all applicable laws and standards and is suitable provisioned and compatible for use with Your Service.
- c) You must comply with Uniti or its supplier's reasonable directions relating to the equipment used with Your Service, including upgrading or reconfiguring the equipment where Uniti or its supplier reasonably requests, including as a result of Uniti or its supplier making changes to its network.
- d) You acknowledge that Uniti or its supplier may disconnect your equipment from Your Service if, in its reasonable opinion, it may interfere with or disrupt the Service.

10. Invoicing for Your Service

10.1 Invoicing and Payment for Your Service – Uniti's Billing Policy

- a) All upfront costs and monthly charges for Your Service are detailed on Uniti's website at www.unitiwireless.com/plans, in the CIS for Your Service or in the terms and conditions of any advertised promotion or may be listed in Your Application for Services.
- b) All billing for Your Services will be made in accordance with Uniti's Billing Policy, and You agree to comply with that Billing Policy.
- c) You represent and warrant to Uniti that You have read, understood and will comply with Uniti's Billing Policy.
- d) You must pay all upfront costs, monthly charges or additional fees in accordance with the terms set out in Your Application for Services, CIS or invoice.
- e) You agree to supply Uniti with valid and current billing information, as well as providing authority to direct debit Your nominated bank or credit card in order to pay for Your Service and billing invoice Uniti send You.
- f) In the event that You elect to pay by credit card payment, and a payment is dishonoured by Your bank, and the bank charges Uniti a fee, then Uniti will on-charge that fee to You, and You agree to pay that fee.
- g) In the event that payment by cheque is available as a payment option, and You pay by cheque, but a cheque is dishonoured by Your bank, then Uniti will charge You a fee. You agree to pay that fee.
- h) Any costs Uniti incur in the process of collecting late, or unpaid payments will be charged to You. You agree to pay any such costs.
- i) If You do not pay Your bill Uniti can also suspend or even cancel Your Service until Your bill payment is made. These costs include but are not limited to, a Cancellation Fee, penalties or interest as a result of late or declined payment, as well as levies or fees charged to Uniti. Any value added taxes relevant to Your Service will also be charged to You.

10.2 Costs in relation to equipment

If Uniti are required to service, repair, alter or replace Your Service or any equipment used for Your Service

because You (including anyone with permission, implied permission, Your employees, agents or contractors) have breached the CSA, have been negligent, fraudulent, reckless or have otherwise interfered with Uniti's equipment, or because Your equipment has failed due to Your own act or omission, then Uniti can charge You an additional fee or fees. This charge is also applicable to electrical power failures, surges and fluctuations caused by Your own (including anyone with permission, implied permission, Your employees, agents or contractors) act or omission.

10.3 Special Offers for Services

Uniti may advertise special offers for Services (Special Offers). Notification of these offers and may be part of a general advertisement or offered directly to You. Generally advertised Special Offers will be displayed on our website. If advertised directly to You they will be provided upon request or at the time of completing and submitting a Special Offer application. Depending on the terms of the Special Offer, it may or may not be applicable to You if You are already in the middle of an existing contract. Once a Special Offer is validly accepted the terms of the offer will apply until the expiry of the Special Offer that has been notified by us. The Special Offer terms and conditions will specify all terms and conditions that prevail over the standard CIS's until the expiry of the offer. Apart from these, all other terms and condition of our CSA will still apply during and after the Special Offer begins and expires.

11. Your use of Your Service

11.1 Use of Your Service must comply with Uniti's Fair Use Policy

- a) Uniti's Fair Use Policy:
 - i) imposes rules to ensure that all of Uniti's customers access and use Uniti's telephone or broadband Internet services in ways which are not 'unreasonable' or 'unacceptable';
 - ii) explains how unlimited plans work; and
 - iii) sets out Uniti's responsibilities around retention of data to ensure compliance with legislation and with directions from regulatory and other law enforcement bodies.
- b) You represent and warrant to Uniti that You have read, understood and will comply with Uniti's Fair Use Policy.
- c) You acknowledge and agree expressly that at all times You will use Your Service in compliance with Uniti's Fair Use Policy.
- d) You acknowledge and agree expressly that if Uniti, acting reasonably, determine that You have used Your Service in a manner which is not in compliance with Uniti's Fair Use Policy, then Uniti may suspend Your Service, change You from the plan You have signed up for to another plan with different speed, data limits or duration, or Uniti may cancel Your Service.

11.2 Residential & Business Use of Your Service

- a) Uniti's Residential Plans are intended only for personal use in a residential environment, Uniti's Business Plans are intended for only commercial use in the ordinary course of that customer's business, and with ancillary personal use.
- b) You must use Your Service only in ways that are consistent with the criteria and limitations set for their Residential Plan or their Business Plan.

11.3 Reasonable & Acceptable Use of Your Service

- a) You must not use Your Service and/ or Uniti's telephone or broadband Internet services in a manner which is unreasonable or unacceptable. The terms unreasonable and unacceptable are defined in Uniti's Fair Use Policy.

11.4 Unlimited calls and data

- a) Uniti offers plans for telephone or broadband Internet services that provide unlimited phone minutes, messages or data. Uniti intend that unlimited plans will allow customers to operate their Uniti Residential, Business or Enterprise plans for telephone or Internet services without having to worry about whether or not they will run out of call time, text message quotas or data. Unlimited means that the amount of calls or texts that a customer may make or data that a customer may download or upload is not usually limited by set quotas. But Uniti also intend that our unlimited phone and data plans are not to be abused.
- b) If for example, every night of the week You have 4 teenagers all watching YouTube, and playing on-line games, and texting their friends, and "doing their homework", and mum and dad are also trying to do work at home and also look for a bargain on Gumtree – that's ok, that is what the plan is for. But if You have set up a system to experiment with what might be technologically or physically possible, eg - downloading all of the files from all of the file sharing sites at nearly full speed for most of the week, downloading in a week more movies than any human being could watch in a lifetime, or running a private data centre, that would be an abuse, and that is not what the plan is for.
- c) If Your Service has unlimited data and Uniti consider that You are consuming huge volumes of data, Uniti may make inquiries about the reason why that may be happening. Where Uniti determines that You are

abusing Your Service, Uniti may impose limits on Your Service or, more likely, Uniti may reconfigure Your Service to another plan at a lower plan price with a data limit.

11.5 Call or Data limits and what happens if You exceed Your data limit

- a) For some plans Uniti set a limit on calls or data that can be made or consumed for that service.
- b) If Your Service has a call or data limit and if you then exceed the data limit on Your Service, then Uniti's AI infrastructure (a precursor model to the Terminators we are building) will step in automatically and shape Your Service to low speed.
- c) This step is taken so that charges for excess call or data use are not accrued to Your Service, because You may not have planned for these and they may cause You difficulties. This step is also taken because using call or data in excess of the limit set for Your Service means You have gone outside of the agreed limits set for the contract that You have agreed to for Your Services.
- d) If You have exceeded the call or data limit for Your Service then You may top up your call or data limit by purchasing a call or data pack, or you may increase Your Service from a plan with a call or data limit to a plan with unlimited data.

11.6 Bullying, Harassment & Trolling

Uniti want the telephone and broadband Internet services that Uniti provide to help make the world a better place, not a worse place. Uniti respect the agency of individuals, the rights of minorities and of people who might be a bit different, Uniti think women and men and gender-non-specific are all entitled to equal treatment, to access to opportunities and to safety, Uniti think that people with different levels of ability are entitled to an even chance, and Uniti think its ok to be LGBTQ. Uniti think that bullies and trolls can do enormous damage to people, even if they don't think that's what they are doing. Therefore:

- a) You must not use Your Service to engage in conduct is or might be: harassment, offensive behaviour, bullying or trolling, or which is otherwise unreasonable or inappropriate, regardless of whether such content is actually lawful or unlawful.
- b) You also must not use Your Service to engage in conduct on-line, against groups of people, against ideas or generally, that does or might constitute: hate speech, fighting words, or which otherwise articulates unreasonable or inappropriate anger, hate, frustration, lies or disinformation, regardless of whether such content is actually lawful or unlawful.
- c) If someone is being harassed or bullied on line, via someone using a Uniti Internet service contrary to these obligations, and if the person being bullied or harassed presents Uniti with material, that Uniti reasonably determine has substance, – for example an Intervention Order – then Uniti may take action to restrict the activity that is causing the harm, by restricting or limiting access to material, or restricting, limiting or cancelling a customer's service. Or if someone is using a Uniti Internet service, in a way which Uniti determines, is or might be, maliciously spreading hate, racism, discrimination, inciting violence, or to spread lies or disinformation – then Uniti reserves the right, to take action, to restrict the activity that is causing the harm, by restricting or limiting access to material, or cancelling a customer's service.
- d) You agree, that in the event that Uniti does take action to restrict activity that is in breach of Uniti's Fair Use Policy, first – You have been advised of the requirement to comply with Uniti's Fair Use Policy, and second You will not hold Uniti liable for any loss or damage which may follow as a consequence, and Uniti may use this as a bar to any proceeding You may commence against Uniti.
- e) So, please, don't be a hater, please try and be kind, and Uniti won't have to implement these rules, and we'll all get along fine. But if You do hate, Uniti may take action to stop the hate. Here endeth the lesson.

11.7 Uniti's action in the event of a breach of Uniti's Fair Use Policy

- a) If You use Your Service and/or Uniti's telephone or broadband Internet services outside of criteria and limitations set for use, or in contravention of Uniti's Fair use Policy, then Uniti will:
 - i) first - contact You and seek an explanation for the activity; and if that explanation is acceptable to Uniti, Uniti will allow the service to continue, but Uniti will continue to monitor Your use of Your Service; and
 - ii) second - in the event that the explanation is not acceptable to Uniti, or in the event of multiple occurrences, which Uniti find unsatisfactory, Uniti may take action which may include limiting Your Service, shaping Your Service, moving You to another plan at a lower price with a data limit, or, in the event of repeated abuse, suspending Your Service or cancelling Your Service.

12.2 Alteration of Your Service by Uniti – general

- a) Uniti may alter Your Service without notice to You, where that will not have a detrimental effect on You or on Your Service.

12.3 Alteration of Your Service by Uniti – for technical reasons

- a) If technical difficulties arise with Your Service, or if Uniti determines it necessary to do so for operational or technical reasons, then Uniti may alter, (including by reduction), the speed or data limit or duration for Your Service or move Your Service.
- b) If Uniti determines that we must, for technical reasons, reduce the speed or data limit of Your Services, then, because You will not be paying for a service that You are not being provided, and You will be paying for only the service that You are provided, Uniti consider this will not have a detrimental effect on You.
- c) If You believe that this change will have a detrimental effect on You then please tell us and we will consider that and may review the determination.

12.4 Alteration of Your Service by Uniti – for regulatory or other reasons

- a) If Uniti determines it necessary to do so, in order to meet regulatory obligations or otherwise for operational reasons, then Uniti may alter operational aspects of Your Service (including but expressly not limited to, by moving carriers who provide services to support Your Service, and by engaging in arrangements with third parties for services to be provided to support Your Service).

12.5 Alteration to plans offered by Uniti

- a) Uniti may make alterations to its plans for telephone and broadband Internet services from time to time. These alterations may include introducing new plans and / or may include removing old plans.
- b) If Uniti change the plan for Your Service, then You may either:
 - i) Leave the plan for Your Service and move to a new plan for Your Service; or
 - ii) Remain on the plan for Your Service.
- c) If You do move to a new plan for Your Service, then you will be leaving the plan for Your Service that you signed up for originally, You will be moving to new plan for Your Service, and because time travel is not possible, and You cannot ever go back, You will also not be able to return to the plan for Your Service that you signed up for originally.
- d) If You remain on the plan for Your Service, then the plan for Your Service will be grandfathered (legal concept – which means the plan for Your Service will remain the same while everyone around You enjoys the progress of the new plans).

For the avoidance of doubt, the Cancellation Fees described above, apply if Your reason for cancelling Your Service is that You are moving house or office, even if Uniti is not able to provide You with a service at your new house or office. So, please, prior to entering into this Customer Service Agreement, consider the period of time that You will be residing at Your Premises, and if You may be moving prior to the end of the Term of the contract for Your Services, then please, either sign up for a Term of shorter duration or sign up for a month to month service, which aligns with Your plans for how long You may remain at Your Premises.

15. Uniti telephone and Wireless & Fixed Line broadband Internet network

15.1 Uniti's – Telephone and Broadband Internet Network

- a) Uniti does not operate or provide services in the same way as a water or electricity or other utility delivery service, by a single pathway to a single residence or business. Uniti operates a telephone and broadband internet network by both wireless and fixed lines that enables Uniti to deliver telephone and Super-Fast broadband internet services to residential and business customers. Uniti operates a network of connections in the same manner as the internet.
- b) The more connections that are created and are operating in the Uniti Network, the stronger, more consistent, more resilient, and more protected against redundancy, the Uniti Network will be, and the Uniti Network is able to provide strong and consistent telephone and Super-Fast wireless broadband internet services. For example, in the Uniti Network with strong connections, if a customer's connection to the south is disconnected, services can still be provided by the connections to the network to the north, east and west.
- c) So, when installing a connection to a customer's residence or business, Uniti may determine it necessary to be able to connect that site to other residents or businesses in the area through a number of connections. You agree to enable Uniti to connect Your Premises to other sites in the Uniti wireless network through a number of connections.
- d) For the avoidance of doubt, connection into Uniti's wireless broadband Internet Network through a number of connections will be by equipment, attached to Uniti's mast at Your Premises. The services provided by the Uniti Network will be separate from Your Service, and as such the Uniti Network does not impact on the bandwidth or performance of the Customer's connection.

16. Privacy

16.1 Privacy Policy

- a) This Privacy Policy applies to personal information that is collected by or on behalf of Uniti (collectively 'we', 'us' or 'our') in relation to the provision of Uniti's telephone and broadband Internet system ('the System').

- b) Uniti are committed to meeting the standards set out in the Privacy Act 1988 (Cth) and the Australia Privacy Principles which together govern the collection, maintenance, use and disclosure of certain personal information.
- c) Uniti collect true, accurate and current information concerning the User (the person who will be using the System) ("the Registration Data") to enable the System to operate effectively.
